

CBDskincancerclinic

Suite 401 / 46 Market Street, Sydney NSW 2000 Ph 02 9299 7777 Fax 02 9299 9393 www.cbdskinccancer.com.au

-EFUDIX INSTRUCTIONS-

1. Use **sparingly** twice a day, rub in lightly.
2. **Do not use soap** to clean the treated area. Use water and a non-soap cleaner such as QV, Cetaphil or Dermaveen
3. If using on the face avoid applying Efudix near the eyes, lips, mouth and the creases around the nose
4. Use Efudix for the prescribed amount of time, usually 3 or 4 weeks.
5. Redness, dryness and flaky skin and crusting is expected.
6. Please call the clinic/stop using Efudix if you develop any of the following unexpected reactions:
 - swelling of the skin or any other allergic reaction
 - bleeding/oozing of the skin
 - pain
 - signs that the skin may be getting infected (eg: pus/swelling/pain)
7. Once you have finished your treatment **moisturise at least 3 times each day** with a good moisturiser such as, Cetaphil, Dermaveen, Eucerin, Dermeze- use the product without sunblock
8. Use only non-soap cleaners to clean the area
9. Make an appointment to see your skin cancer doctor 1 week after finishing your treatment
10. Do not use Efudix if you are pregnant or intend falling pregnant. If you become pregnant, stop using immediately.
